

Date:

Wednesday Challenge Form

Group Members: Edgar, Monte, Raul

Problem Statement: We had to make a structure
As tall as possible using graham crackers, marshmel
And pretzel sticks.

Approach: We decided to sketch a tower of graham
Crackers thinking it would stand up. We were given
A sketchup that also didn't hold up so that was
Unfortunate.

Solution: We attempted to create the sketchup
But we found out that it was not possible to make it.

Lessons Learned: Sometimes the plan wont wont
Be possible to make so you have to have a plan B.
